

Our LAPYA family, takes its name from the grooves opened by melting the surface of rain and snow waters. Lapyra models can be emptied without moving the body thanks to lids are opening backwards. There are inner buckets with a volume of 50 lt for each compartment. The waste bags are placed in the inner buckets thanks to the bag holding design.

Features

Lapya product family presents model in five different sizes, from one compartment to five compartments, according to your needs. Each compartment is 50 Lt.

50 Lt

50+3 Lt

50+35 Lt

It has two body options battery waste compartment and a battery box. Battery waste compartment, 35 lt, which housed in a single body smaller than the normal compartment by volume and Battery box with a volume of 3 liters, it is attached to the body from the side. It is used by hanging the product with the bag hanging system.

The use of the product is as follows; product's lid on the top opens backwards and attached waste bags on the inner buckets can be easily emptied and new bags can be inserted into the bucket. Product can be cleaned by wiping with a damp cloth.

Lids open easily from the top.

50 lt volume inner buckets has bag attachment apparatus.

Lapya has secret wheels.

TURK PATENT

Product is made of materials that can be %100 recycled. Environmentally friendly, Eco-design product with minimal waste. LAPYA design is unique. Designed by industrial product designer Yasemin Artut and Elif Kadayif for ROKA Design. The design of LAPYA products is registered under Turkish patent and trademark office.

roka
create by design

To create a order;

1. Determine the liter volume of the product.
2. Determine the floor of the product.
3. Determine the sliding system of the product.
4. Identify the waste labels to be found on the product.
